Dear Parent & Carers,

Week of Wellbeing - 13th to 17th May 2019

Trips and Excursions form a massive part of the co-curricular events that are offered here at Craigmount. To reflect our diverse catchment we offer a range of curricular enhancing experiences which aim to meet the needs of all our learners. Last session, 2017/18, 155 excursions took place across the school year ranging from local visits to overseas expeditions.

Most trips take place during our Week of Wellbeing (WOW) in May. During this time students from S1, S2, S3 and some S4 will be given the opportunity to select from a wide variety of activities. Planning is already underway for this year's larger residential trips which are outlined below.

Students who would like more information or to enroll on a residential trip should attend the relevant information meeting with the trip leader on **Friday 12th October** during the **morning interval**. The location of each meeting will be communicated via the morning bulletin.

Please note, all trips are dependent on numbers and cost of each trip is indicative at this stage. Trip Leaders will decide the basis on which we allocate places. All trips can be paid up in installments over time and payment plans can be arranged with trip leaders. Balances must be paid in full before trips commence.

Additional to the residential trips, there will be a number of day excursions and courses that will be available to all pupils to opt in to. The cost of these trips will range from **free of charge** to **approximately £100**. These will take place over the Tuesday, Wednesday and Thursday of the Week of Wellbeing, 14th to 16th May. A full list of day excursions for WOW19 will be published on the school website prior to the Christmas break. Please [click here](#) for further information.

Additional, detailed communication to parents will follow when appropriate. Should you have any questions or queries regarding individual trips, these should be directed to the respective Trip Leader.

Yours Faithfully,

Mr. J. Webster
