

22 June 2021

Dear Parent/Carer

SQA Provisional Results

You will be aware that we will e-mail all pupils who are being presented for course awards at National 5, Higher or Advanced Higher level tomorrow after school and you will also receive a copy of this letter by e-mail. The letter will contain the provisional grades we will submit to SQA by the end of this week. It will also explain the process of setting these provisional grades, as well as a link to SQA's appeals process and information about support which is available from Skills Development Scotland over the summer.

We have taken the time to ensure the demonstrated evidence has been considered. However, if your child thinks there has been a clerical error in collating these results then please get in touch with us so that we can complete a clerical check. The clerical check should be requested using [this form](#) and we will contact you with the outcome of the check.

Unfortunately, in terms of making appeals, we cannot discuss these grades in depth before the end of term but our staff will be available to discuss possible appeals with your child once school resumes (from 18 August). In addition, your child does have the right to make a direct appeal to SQA over the summer as our letter will explain. The deadline for priority appeals – those where the offer of a place at higher or further education are involved – is 24 August.

If your child is concerned about the impact of these results on their chosen pathway, please encourage them to get in touch with their Pupil Support Leader before the end of term on Teams.

Yours sincerely

Colin Meikle
Headteacher
