Dear Parent or Carer

## **Craigmount High School Extension**

We are launching a public consultation on our proposed extension to Craigmount High School. Responses to the consultation will be considered as part of the Planning Application for the project.

The extension is required to provide the school with the space and facilities it needs to meet growing demand for places from new housing developments. In addition to new classrooms and sports facilities, the project will also improve and expand the availability of social spaces like the dining area, toilets and circulation routes. Landscaping of outdoor spaces will also be part of the project.

The proposal is to build the new extension on the grass field at the east side of the school. We have engaged with staff and pupils to shape the accommodation requirements and priorities for the extension. If approved, we currently expect the work to begin in 2028.
